THEORY OF CHANGE FOR _____

Last Revised On:

Vision / Mission

Values/ Guiding Principles

Indicators / Outcomes

Value (Impact) Proposition	Focus Population

Outcomes / Outputs

Key Drivers

Assumptions

Outcomes / Outputs

Key Strategies & Programs

Assumptions

SUPPORTING EVIDENCE

- What evidence supports your theory of change?
- How does the evidence support causal links within your theory of change? How strong are the links?
- What's the same or different between your theory and the evidence?

PROMISING PRACTICES

- What promising practices or approaches support your theory of change?
- How does the promising practices support causal links within your theory of change? How strong are the links?
- What's the same or different between your theory and the promising practice?

HYPOTHESES

- What hypotheses are embedded in your theory of change?
- What has informed these hypotheses? How do the hypotheses impact the causal links in your theory of change?
- What will inform these moving forward? How will you know if they are accurate?
