Free Tax Prep FAQs

Free Tax Prep, a Volunteer Income Tax Assistance (VITA) program funded by the IRS and United Way, helps families achieve economic well-being. Free Tax Prep helps individuals and families with limited resources keep more money in their pockets. We assist people in preparing and filing their tax returns.

Why is this important?

- The IRS estimates 20% of eligible families do not claim the Earned Income Tax Credit (EITC), with a similar number missing out on the Child Tax Credit. An estimated two-thirds of eligible families who do not receive EITC do not file tax returns, due to cost or lack of resources.
- Commercial preparation services are cost-prohibitive and may offer predatory advances that incur further costs to taxpayers. Free Tax Prep saves community members \$275 in fees for each return prepared and helps them claim the refunds and credits they are due.
- Last year Free Tax Prep filed more than 9,000 returns, resulting in refunds and savings of over \$12 million for families with limited resources.
